

Scam Alert - Fraudulent Job Postings

Several job applicants have contacted us to apply for jobs that we have not posted. We wanted to inform you that someone is using the Sunset name to post jobs and gather personal information from applicants.

What to look out for:

- Anyone contacting you on behalf of Sunset from an email address ending in anything other than @sunsethcs.com
- Company names that sound similar to Sunset Healthcare Solutions but that don't match exactly, for example Sunset Home and Health Care or Sunset Home Care.
- Generic job postings for multiple departments in one position, for example, a single posting for a position in: Consulting/Customer Service/Data Entry/Sales/Business Development
- Immediate job offers without an in-office interview
- Anyone requesting to interview you over email or an instant messaging program
- Anyone requesting personal information such as your birth certificate or social security number over email or instant message

We are in no way affiliated with this fake company and we encourage you to disregard any job postings that match the description above. If you have already applied for a position, we recommend that you cease any future contact.

We're committed to protecting the privacy of anyone who applies for a job at our company and we assure you we would never ask for personal information over email, phone or instant messenger.
