

SperaChamber

Anti-static valved inhaler chamber for metered dose inhaler

Item#

RES095

SperaChamber

RES095MP

SperaChamber with Dog Mask — Pediatric (3-6 Years)

- Latex Free
- DEHP Free
- Universal adapter with spiral vents
- Mask made from soft and comfortable material which easily contours to the patient's face to minimize medication loss and reduce waste
- Mask's exhalation safety valve releases CO₂ when patient breathes out
- Chamber features one-way valve that opens to allow inhalation of aerosol and closes to prevent patient from exhaling into the chamber
- Drug delivery is further enhanced by the antistatic quality of the chamber, a feature that helps prevent medication from clinging to the chamber wall
