Argan Oil

Rich in nutrients and antioxidants, argan oil moisturizes, protects and soothes dry skin without clogging pores. It can also promote wound healing and reduce signs of aging.

Aloe Vera

Aloe vera is well-known for its soothing and anti-inflammatory properties. In addition to moisturizing, it relieves skin conditions, manages acne, fades dark spots, and slows signs of aging.

Vitamins A & E

Vitamins A & E prevent skin from losing moisture and protect cells from damage. They soften skin, speed up healing, prevent breakouts and support the skin's immune system.
