Available from

Redefining sleep comfort

Reimbursable

Eclipse is covered under Nasal Masks (HCPCS A7034) and Nasal Pillow Cushions (HCPCS A7033).

A steady resupply revenue source

The 16-night supply pack of Halos equals 22 resupply events annually.

No leaks

Bleep's patented design fits the exact shape of the patient's nose, so it's totally leak-free. No more sleep disruptions!

Total comfort

Patients can sleep on their back, stomach or side; the Eclipse won't slip off or get in the way. Sweet dreams!

Zero marks

No headgear or mask equals zero face marks. Patients wake up refreshed and ready to go!

The BLEEP **Eclipse™** clinically-proven NO LEAKS PAP solution is the only one of its kind on the market. No headgear, no mask lines and no broken hair. The comfortable Eclipse mask frame includes a diffuser and flexible tube and connects to Halos in lieu of headgear. Halos affix to the nasal area without inserting into the nostrils, significantly reducing irritation and claustrophobia, driving patient comfort and health, and preventing face marks. Halos are hypoallergenic, with gentle, surgical grade adhesive, and free from BPA, corn or latex. Halos utilize innovative MagSeal™ technology for rapid connection and disconnection. BLEEP sleep solutions are covered by Medicare and insurance, and the only CPAP solutions fully made in the USA.
