

A Next Generation Pediatric CPAP Mask

Designed for children ages 2-12, Sleepnet's MiniMe[®] and MiniMe2 masks feature patented AIR^ogel with Advanced Cushion Technology. With increased moldability, MiniMe masks provide your smallest patients with the ultimate fit and maximum comfort.

AIR^ogel

Maximum comfort, minimum weight. Patented AIR^ogel makes MiniMe masks some of the most gentle fitting masks on the market.

BAA Compliant

- 100% designed and manufactured in the USA
- Environmentally conscious production practices
- Backed by warranty against manufacturing defects

Advanced Cushion Technology (A.C.T.)

Sleepnet's ergonomic cushion technology delivers an effective seal for the most comfortable fit.

Custom Fit Technology

The shapeable shell mask can be easily molded to fit individual needs.
Flex, Fit, Forget.

Vented and Non-Vented Versions Available

For pediatric CPAP and Bi-level therapy.

Touchless Spacebar™

Unique design eliminates any contact with the patient's forehead.

360° Rotating Elbow

For optimal tube positioning and easier mobility.

Size Indicator **S/M** **M/L**

Printed directly on mask for easy identification.
