*Ask us about our 30-day mask guarantee*

- Sleepnet has the only mask that you can shape to each individual face. Flex, Fit, Forget!
- Cushions may be removed and replaced without purchasing a new mask.

- Magnetic Clips — Easy on and off!
- 360° Swivel — Less tube drag for active sleepers.
- One size cushion — Larger fitting range.

## Veraseal 2 Disposable Gel Mask with Headgear  Ⓥ

- The Veraseal® 2 disposable full face mask brings AIR°gel® Technology to the acute care environment for a giant step forward in patient comfort. Three color coded elbow designs make choosing the right mask for CPAP, single, or dual limb circuit NIV systems simple. The Veraseal® 2 fits quickly and easily while enhancing patient comfort. Both vented (with leak ports) and non-vented (without leak ports) versions are available for CPAP, Bilevel, and ventilator therapy.

- The AIR°gel® cushion provides the utmost in gentle cushioning to protect from pressure points and irritation. AIR°gel® promotes advanced skin protection, superior performance, and unbeatable comfort, all in a lightweight mask.

- The active headgear connector moves as the patient moves for a reliable seal.

- Breathable headgear lets patients enjoy soft, lightweight stability they can count on for a comfortable fit.

## Vivo 45LS Portable Life Support Ventilator

Item#
**VNT230016**

The Vivo 45LS is designed to maximize independence and mobility for adult and pediatric patients from 11 lbs/5 kg.

**Packed with features like:**
· Auto-EPAP*
· HFNT*
· AHI* plus built-in humidifier* with heated wire circuit*
· eSync
· Built in information iButton
· 24+ hour battery
· Can connect to the securely hosted Breas cloud solution, EveryWare

*Modification in accordance with FDA's guidance, Enforcement Policy for Ventilators and Accessories and Other Respiratory Devices During the Coronavirus Disease 2019 (COVID-19) Public Health Emergency.

## Vivo 65 Dual Limb Life-Support Ventilator

Item#
**VNT224516**

The Vivo 65 is an advanced homecare ventilator designed to deliver comfortable and effective (life-support) treatment to adult and pediatric patients from 11 lbs/5 kg.

The Vivo 65 can be used for a wide variety of patients thanks to a comprehensive set of modes, circuits and accessories. The dual limb circuit allows for measurement of exhaled volumes providing additional security.

The extensive monitoring capabilities, including EveryWare, help obtain a better insight into the quality of ventilation. The Vivo 65 is an excellent choice for mechanical ventilation at home, in the hospital and in long term care facilities.

## Assured, repeatable accuracy to enable safe, effective weaning.

### What is Microflow used for?

Microflow is primarily used to supply supplementary oxygen to infants with bronchopulmonary dysplasia (BPD).

BPD is common in very low birth weight and pre-term infants that have needed mechanical ventilation or have been treated with high oxygen concentrations due to respiratory distress syndrome (RDS)/chronic lung disease (CLD).

The risk of RDS/CLD is inversely related to birth weight and gestational age.

Infants may need very low supplementary oxygen for many months to compensate for underdeveloped lungs.

### Microflow benefits

· Enables baby to receive oxygen therapy at home, putting families together
  sooner and increasing parent satisfaction
· Less time in hospital, lower cost of care
· Accurate, repeatable steps
· Micro step changes in flow
· Enables low flow rates to achieve target saturation
· Enables oxygen flow to be weaned

## Lynx Venturi Oxygen Delivery Ⓥ Ⓟ

### Low Concentration

#### Item# **RES2400**
**Each**
Adapter Only **RES240LC**

- Design replaces multiple venturi adapters
- Connects to oxygen tubing and regulates flow
- Provides precision $FiO_2$ delivery from 24–60% with less than 2% variance during mild, moderate, and severe respiratory distress
- Excellent $CO_2$ washout
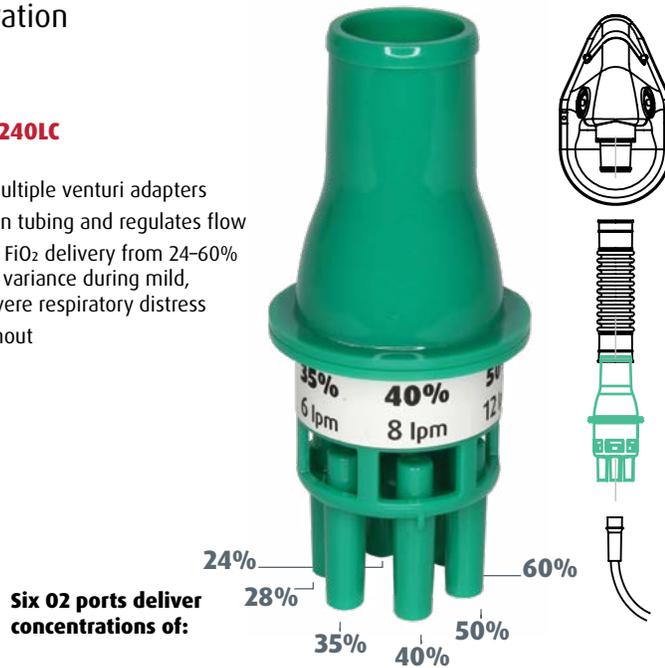

**Six O2 ports deliver concentrations of:**

24%
28%
35%
35% 40% 50%
40% 8 lpm
60%
50%

### High Concentration

#### Item# **RES2401**
**Each**
Adapter Only **RES241HC**

- Allows rapid de-escalation of $FiO_2$ in the EMS ambulance or ED to prevent $CO_2$ buildup.
- Replaces bulkier high concentration venturis and non-rebreather bag systems
- Accurate assessment of the severity of hypoxemia ($PaO_2/FiO_2$) allows early intervention and better outcomes
- Excellent CO2 washout

Single flow (flush) with an adjustable window shutter delivers oxygen concentrations of 65% · 80% · 100%

Capabilities could include replacing non-rebreathers and/or partial rebreather products

### Unprecedented simplicity

No training required. Intuitive design makes it easy for nurses to operate without assistance, freeing up RTs to work where most needed.

### Do no harm

Quicker de-escalation of $O_2$ levels and prevention of excessive $CO_2$ in the patient.

### Reduction in waste

Remains with patient throughout EMS and hospital journey, replacing multiple adapters which may get lost or contaminated during transition.

### Unmatched precision

Provides specific levels of oxygen with less than 2% variance. Comparable products vary by as much as 30%.

## Humidoflo High Flow Nasal Cannula Ⓥ Ⓟ

**10/case**

- Tube Side Quick Switch connects tube to either side of the patient
- Kink-free prongs and flexible, low-noise tube
- Compatible with any ventilator with a standard 22mm ISO connector, including Respironics V60
- Suitable alternative to Philips AC611
- Can be used with F&P 850 and 950 with HFN001-FPA adapter
- Comparable to F&P OptiFlow cannula (OPT942, OPT944, OPT946)

# Firesafe Thermal Shut-Off Valve **V**

Item#
**RES010-10**
Bidirectional
**10/case**

- A thermal fuse designed to stop the flow of gas in the event that the downstream oxygen tubing is ignited
- Helps protect against oxygen tubing fires
- Helps keep patients safe no matter what method of oxygen delivery they use
- Offers a cost-effective solution to lower the risk of serious patient injury in an oxygen fire

- Smaller
- Laser etched
- Expiration date
- Human readable UDI
- Designed to last 5 years

**Firesafe™ Cannula Valve with adapter** or Firesafe™ Nozzle

**Firesafe™ Cannula Valve**

O₂

**Firesafe™ Cannula Valve with adapter** or Firesafe™ Nozzle
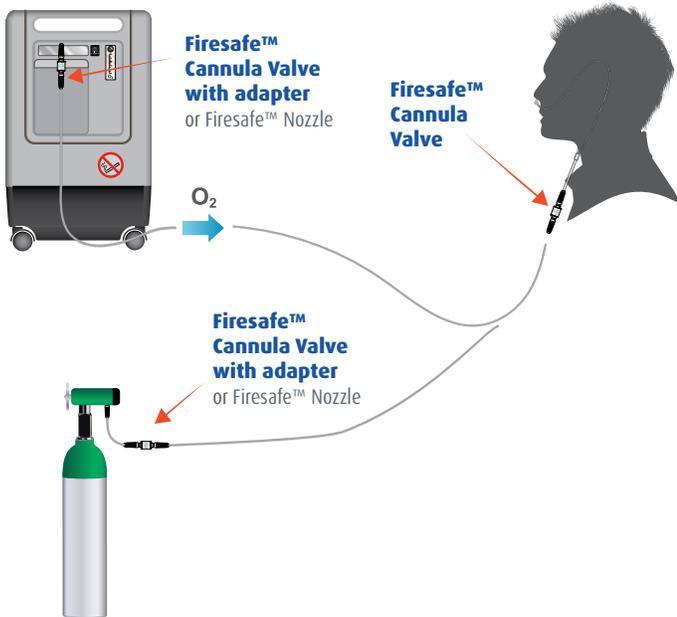

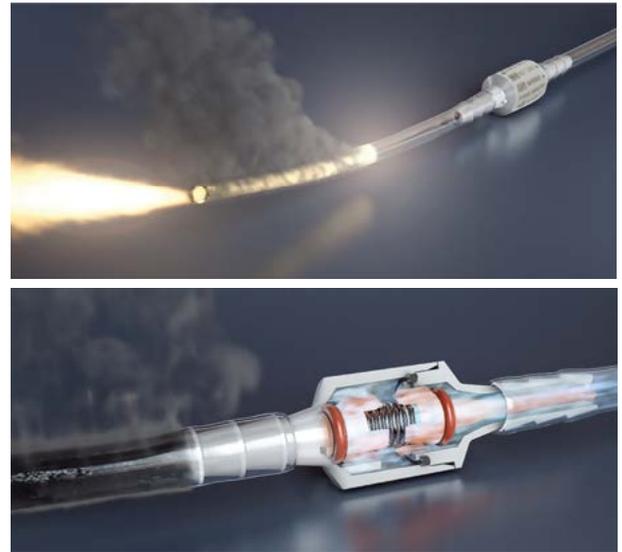

Home oxygen fires represent a much higher risk in the United States than the United Kingdom, where the fitting of thermal fuses for oxygen is mandatory.

Item#
**RES050**
Up to 15 LPM · 6 psi · 500 ml
**50/case**
HCPCS# E0560
OEM# HUM001

· Multi-threaded lid ensures a
secure fit, preventing leaks and
service calls
· Audible back pressure alarm
activates at 6 psi
· No aluminum fitting in stem
eliminates aluminum shreds often
found in lower quality models
· Soft plastic diffuser reduces
clogging due to mineral build-up
· Translucent jar provides improved
visibility of jar contents

· Humidifier bottle lid is colored
green/yellow, making it easy to
tell patients on the phone how to
change the bottle
· Bottle fill line is very easy to see
· Finger grips at the top of the bottle
make the lid easier to screw on/off
for the patient

SCAN FOR VIDEO

· Chambers for ball
  and volumetric
· Tube
· Mouthpiece

The Volumetric Incentive Spirometer helps patients perform and monitor their own post-surgical breathing exercises. The patients are encouraged to breathe in from the device as slowly and as deeply as possible.

· Adjustable target indicator
  provides a volumetric guideline
  for adequate lung exercise
· Dual-sided, clear and legible
  identification of volumes

· Inspiratory indicator encourages
  patients to maintain an
  appropriate rate inspiration
· Compact and ergonomic design

## Drainage Bag with Y-Adapter **V** **P**

Item# **RES071**
750cc
**50/case**

· Designed to ensure patients
  receive mist rather than liquid
  accumulated in the tubing
· Includes hanger and bottom
  drainage port
· Works with 22mm corrugated
  aerosol tubing

## Drainage Bag with T-Adapter **V** **P**

Item# **RES070**
750cc
**50/case**

## Three Ball Spirometer

Item#
**RES057-10** **P**
**10/pack**

**RES057** **V** **P**
**12/case**

· Improves the patient's lung
  expansion by training their
  inhaled lung volume
· Three color coded balls inside
  the chamber offer incentive
  for the patient

· Three color-code balls in three chambers
· Chamber to lung capacity: 600cc/sec, 900cc/sec, and 1200cc/sec
· Compact design and break-resistant plastic
· Each set includes incentive spirometer, disposable mouth piece
  and flexible tube

## 90-Degree CPAP Tubing Elbow  V  P

Item# **CAP1027**
**Each**

The Sunset 90-Degree CPAP Tubing Elbow Adapter connects standard 22mm or slim 15mm CPAP tubes to most CPAP machines at a 90-degree angle, relieving stress on the tubing connection and creating a more convenient pathway to the bed.

Comparable to OEM# 37394

| **RES8015** | 1500cc |

**Economical**
Pre-measured rupturing pouches eliminate the tearing and spillage associated with conventional solidifiers for medical waste.

**Particulate-Free**
Self-activating technology reduces particulates and bacterial exposure, and eliminates harmful dust.

**Reduce Exposure**
Helps to minimize the risk of cross contamination of infectious waste to medical staff.

**Contain spills quickly with this astonishingly absorbent liquid solidifier packet**
Super absorbent packets quickly absorb up to 400 times their own weight in aqueous solutions. These drop-in liquid absorbers offer the ideal solution for shipping, storing, and handling of aqueous solutions that must be contained quickly and effectively in the event of a leak.

**Smart Design**
Specially formulated pouch bursts open in the presence of a wide range of fluids to quickly immobilize them. Solidified material is easily contained by an outer vessel, shipping container, or other such device, resulting in safer handling.

**Ideal for Medical Use**
The most common applications for the use include medical shipping containers and bio-specimen transportation bags used for vials, test kits, and lab trays.

## Closed Ventilation Suction System

# Deluxe Switch (One-handed operation) P
## Sterile and latex-free

**Irrigation Port**
Offers a one-way valve to
prevent backflow leakage and
easy access for cleaning the
closed suction system.

**Suction Control Switch**
Ergonomic suction control switch with a built-in
security lock to visually determine if the device is
in the OFF/ON position. Offers a quick and easy,
single-handed operation design, which allows
you to keep your eye on the patient and do no
harm. One-handed operation allows the free
hand to support the ET or Trach device to ensure
less trauma to the site.

**MDI Port**
Provides access for drug delivery
as needed. Large and easy
to grip port allows for rapid
medication introduction.

**Catheter Tip**
Atraumatic rounded
catheter tip for minimal
tracheal wall injury.

**Isolation Valve***
Seals the irrigation chamber to provide
a better cleaning of the catheter. Allows
for continuous ventilation and prevents
backflow of saline during cleaning to
ensure patient comfort and safety.

*Only available with 72 Hour catheter

**Black Ring Indicator**
Ensures that the catheter is properly
withdrawn from the ET or Trach device.
Black ring must be visible in the plastic
sheath after suctioning the patient.

# PeDIA

## Pediatric Device for Induction of Anesthesia

| Item# | Size |
|-------|------|
| **ANEP001B** | Blue |
| **ANEP001Y** | Yellow |
| **ANEP001P** | Purple |

*PeDIA resolves the problems of traditional mask induction while fostering a sense of trust and patient satisfaction.*

For children, the process of undergoing surgery is already unsettling, and the process of mask-based induction is often the most traumatizing part. With the introduction of the revolutionary Pediatric Device for Induction of Anesthesia device, or "PeDIA" for short, that stress and anxiety can be replaced with something colorful and fun.

As the world's first mask-free system and method for inhalation induction, the PeDIA provides a solution to this problem that anesthesia providers have been researching for decades. It replaces the mask with a colorful balloon, which actually allows the child to put themselves to sleep rather than being forced to submit to an unfamiliar mask.
