- Sleepnet's patented AIR°gel® technology provides maximum comfort while minimizing skin irritation and pressure points on the nasal bridge. Unlike many other gel masks, the unique qualities of AIR°gel allow the mask to seal with minimal tension. By design AIR°gel is twice as soft as competing gel products.
- Sleepnet has the only mask that you can shape to each individual face. Flex, Fit, Forget!
- Cushions may be removed and replaced without purchasing a new mask.
- Magnetic Clips — Easy on and off!
- 360° Swivel — Less tube drag for active sleepers.
- One size cushion — Larger fitting range.

Precision-fit, immediate, simple and affordable solution for snoring and mild to moderate sleep apnea.

- Offers immediate treatment
- Can be fitted in 15 minutes in a sleep lab, physician's office or DME
- Clinically proven in over 40 independent peer reviewed studies to treat snoring and obstructive sleep apnea (OSA)
- Patients control and remold trays with Precision-Fit, enabling overall comfort, compliance and success: 90% of patients achieve ideal fit upon first try, no bite registration needed
- Thin, sleek trays create a comfortable, low-profile appliance
- Simple design makes it an affordable and convenient option
- Includes an AM Aligner to help offset potential bite changes
- Includes a mouth shield accessory to prevent dry mouth or excess saliva. A secondary benefit is the promotion of nasal breathing, the best natural way to breathe

Bongo Rx EPAP

Item#

CAPBNG500

Bongo Rx all sizes starter kit

- All four sizes: small, medium, large, and extra large
- Travel case
- Drying stand
- Headgear
- No machine, tube, electricity, or batteries needed
- Use at home, traveling, camping... use anytime, anywhere
- Small enough to fit in a shirt pocket
- Reusable and easy to clean with simply soap and water
- Designed, molded, and assembled in the USA
- Clinically tested to demonstrate safety and effectiveness
- Supplemental lifestyle option for your compliant patients
- Patient friendly option for your non-compliant patients

The Bongo Rx is a simple device with soft nasal seals and is available in various sizes (S, M, L, and XL). The Bongo Rx is an EPAP (expiratory positive airway pressure) device and works as follows:

- During inhalation, small valves open to allow normal breathing through the device.
- During exhalation, the valves close and direct exhaled air through small vents to generate EPAP, which keeps the airway open.

SleepRes V-Com™

Item#
CAP1026
Each

NEW

Helping patients adjust to CPAP on their own

Adding V-Com to a patient's therapy is like Training Wheels for CPAP™. This simple device can mean the difference between your patient giving up on PAP or continuing their lifesaving treatment.

Within minutes, a respiratory therapist can show a patient what the PAP pressure feels like with and without the V-Com device inline. This feedback mechanism allows them to better understand how their airflow should feel.

As you know, comfort equals adherence and adherence equals better treatment outcomes.

The V-Com Difference

Improve early PAP tolerance with V-Com by providing your patients with initial comfort that doesn't compromise their treatment.

Traditionally, when a patient struggles with the constant flow of air pressure, pressure settings are reduced.

Reducing pressure settings to increase a patient's initial tolerance improves comfort, but at a cost.

Decreasing pressure settings also means decreasing expiratory positive airway pressure (EPAP) which is principally responsible for therapy.

The V-Com effect is flow-dependent with its maximum comforting effect during the high inspiratory flows. As a result, V-Com has minimal effect on expiratory positive airway pressure.

Snugz CPAP Mask Liners

Item#

CAP7001

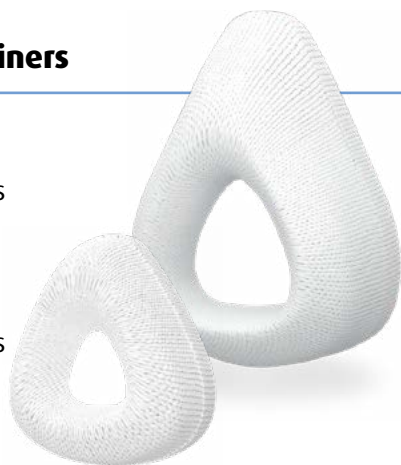

Machine-Washable Liners
for Most Full Face Masks
2/pack

CAP7002

Machine-Washable Liners
for Most Nasal Masks
2/pack

- 2 per pack, 90-day supply
- Machine washable
- Fits MOST nasal or full face CPAP masks (Not recommended for ResMed Mirage Quattro or Respirationics Amara View and Dreamwear)
- Blend of spandex, moisture-wicking polyester and lycra fibers
- Latex-free

Snugz is a machine washable, one-size-fits-most liner for CPAP masks that is designed to help reduce noisy leaks, prevent redness and irritation, and feel great against the skin. The liner helps to grip the skin and keep the mask in place around the nose and mouth, reducing the need for a chinstrap. The improved seal is especially beneficial for high-pressure/high-flow PAP patients and can reduce nightly sleep disturbances and AHI.

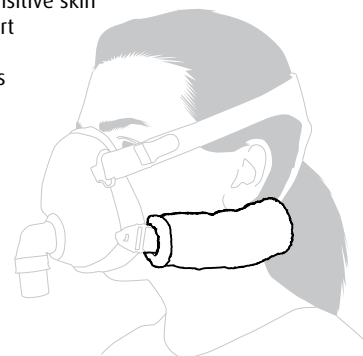

Soft Headgear Strap Covers

Item#

CAP2004

- Reduces strap marks
- No bulky and uncomfortable velcro
- Reduces strap irritation on sensitive skin
- Thick padding for extra comfort
- No need for clips – just slip wraps around headgear straps
- Easy and helpful for patients with arthritis in hands or fingers
- Can be machine washed and dried
- Wraps securely grip headgear and slide to adjust
- One size fits all
- Made from 230g Coral Velvet

With Nasal High Flow (NHF) therapy, patients benefit from warmed, humidified oxygen at a flow rate greater than those seen with conventional oxygen delivery devices, and more than peak inspiratory airflow. NHF treatment is better tolerated due to the heated and humidified air. The NHF apparatus is also smaller and more comfortable on the face than an NIV mask. Patients can continue eating, drinking and talking during treatment, leading to higher compliance. Delivery respiratory gases range from 2 – 60 L/min and O₂ concentrations range from 21 – 100%. NHF is intended for patients in homes and long-term care facilities and may help prevent intubation.

- Tube Side Quick Switch connects tube to either side of the patient
- Kink-free prongs and flexible, low-noise tube
- Compatible with any ventilator with a standard 22mm ISO connector, including Respirationics V60

- Suitable alternative to Philips AC611
- Can be used with F&P 850 and 950 with HFN001-FPA adapter
- Comparable to F&P OptiFlow cannula (OPT942, OPT944, OPT946)

Assured, repeatable accuracy to enable safe, effective weaning.

What is Microflow used for?

Microflow is primarily used to supply supplementary oxygen to infants with bronchopulmonary dysplasia (BPD).

BPD is common in very low birth weight and pre-term infants that have needed mechanical ventilation or have been treated with high oxygen concentrations due to respiratory distress syndrome (RDS)/chronic lung disease (CLD).

The risk of RDS/CLD is inversely related to birth weight and gestational age.

Infants may need very low supplementary oxygen for many months to compensate for underdeveloped lungs.

Microflow benefits

- Enables baby to receive oxygen therapy at home, putting families together sooner and increasing parent satisfaction
- Less time in hospital, lower cost of care
- Accurate, repeatable steps
- Micro step changes in flow
- Enables low flow rates to achieve target saturation
- Enables oxygen flow to be weaned

Oxygen Regulators and Conserver

Mini Oxygen Regulator CGA 870 Style

Bath Safety

PreserveTech™ 360° Swivel Bath Chair

Item#
BSE001

Compact and customizable, the PreserveTech™ Swivel Bath Chair provides a safe transfer in and out of the tub for those with limited mobility. The seat rotates a full 360° in either direction and automatically locks at 90° intervals to help prevent skin irritation and friction wounds during transfers. The seat height can be adjusted from 15"-22", and the padded armrests can be raised out of the way.

Splash Defense™ Transfer Bench

Item#
BSE002

Splash Defense™ Transfer Bench is the first of its kind to allow the shower curtain liner to remain inside the bath tub while a user is bathing. This unique product enhancement is essential to help prevent water from spilling out onto the bathroom floor, creating a danger zone for users and caretakers. The Splash Defense™ Transfer Bench provides security for the caretaker, while giving users back their independence and allowing them to bathe safely and privately again.

PreserveTech™ 360° Universal Raised Toilet Seat

Item#
BSE003

Introducing the PreserveTech™ Universal Raised Toilet Seat. With this truly universal raised toilet seat users can set three different seat heights (2, 4 or 6") by maneuvering just two components. This seat can fit on most standard and elongated toilets and features two hygienic cutaways for easy cleaning. The pivoting armrests can be raised or removed, depending on user needs and bathroom space. This item also includes a lid with a recessed grip for effortless opening.

ZeniCOL Ag

Collagen Matrix Dressing with Silver 10/box

ZeniCOL Ag Collagen Dressing with Silver is an advanced wound care dressing made of animal derived collagen, sodium alginate, carboxymethylcellulose (CMC), ethylenediaminetetraacetic acid (EDTA) and silver chloride. The topically applied wound dressing transforms into a soft gel sheet when in contact with wound exudate to maintain a moist wound environment that aids in the formation of granulation tissue and epithelialization and removes zinc to inhibit the activity of MMPs. The silver chloride in the dressing is an effective antimicrobial intended to prevent colonization of the dressing.
