Vesper CPAP Masks

Sunset's Vesper Full Face and Nasal Masks present the latest in CPAP mask design to provide patients with fresh options for maximum comfort.

Vesper masks introduce a pared back fit, with up-to-date design details like the ergonomic stabilizing arms that curve up to the temples for patients who prefer to forego a forehead piece.

Vesper masks provide more visibility, a feeling of openness and a lighter fit. The flexible interface moves with side or stomach sleepers. The open structure eliminates forehead marks. Vesper masks also feature a 360-degree swivel elbow to prevent awkward tube tangles.

Vesper masks bring balance and calm to the nighttime, softening the edges of sleep.
