Multi-POC Replacement Battery

Item# **RES9000P2**

More Power. More Freedom.

A high-performance, rechargeable lithium-ion replacement battery compatible with the *__Rhythm P2__, Arya Max, and Vita-Ox HD7 portable oxygen concentrators, engineered to deliver reliable, long-lasting performance.

Engineered to Outperform

Rebuilt cell technology and advanced power management deliver stronger, more consistent performance and capacity than the original battery.

Ergonomic Pull Tab Grip

A redesigned ribbed grip makes removal quick and easy, eliminating the struggle of prying the battery loose.

UL Certified Safety

Independently tested and certified to UL's rigorous battery safety standards for added peace of mind.

Drop-In Compatibility

Compatible with the *__Rhythm P2__, Arya Max, and Vita-Ox HD7. Designed to fit and function just like the original, with no modifications required.

Original Battery vs. RES9000P2

	ORIGINAL BATTERY	RES9000P2
Runtime, Setting 1	Up to 5.0 hours	✔ Up to 8.3 hours
Grip/Removal	Smooth housing, hard to pull	✔ Ergonomic ribbed pull tab
Safety Certification	Not Specified	✔ UL Certification
Fit	OEM Fit	✔ Drop-In — No Modification Required
Battery Type	Rechargeable Lithium-ion	✔ Rechargeable Lithium-ion

Original battery specifications are based on the manufacturer's published information. Linyx PX8 runtime was independently tested by an approved laboratory at all Settings. Actual runtime may vary depending on concentrator model, usage, operating conditions, and other factors.

*Linyx is an independent aftermarket accessory designed for compatibility with select Rhythm Healthcare devices. Linyx is not affiliated with, sponsored by, or endorsed by Rhythm Healthcare.

Redesigned for real-world use.

The textured, ribbed grip is contoured for easier removal from the concentrator, providing a more secure and comfortable grip. This thoughtful design improvement helps make battery replacement quicker and easier.

Why Choose the RES9000P2

The RES9000P2 is a rechargeable lithium-ion battery designed as a direct replacement for multiple portable oxygen concentrators, including *__Rhythm P2__, Arya Max, and Vita-Ox HD7. Engineered for dependable performance, it delivers strong capacity, consistent power, and an ergonomic grip designed to make battery replacement quick and easy. Every RES9000P2 battery is UL certified, providing users with added confidence in its safety and performance. It fits just like the original battery, with no modifications required.

Flexible Charging

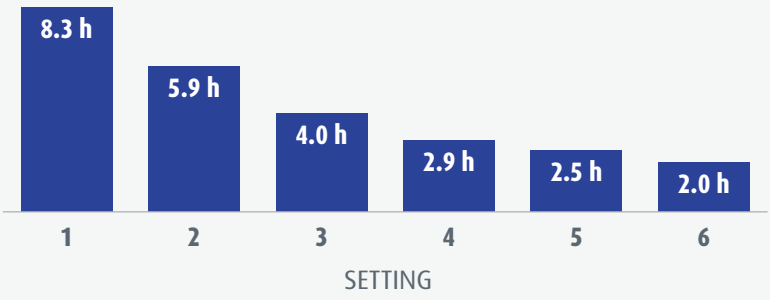

At Home: Recharge the RES9000P2 battery while installed in your concentrator using the AC power supply.

On the Road: Recharge the RES9000P2 battery while installed in your concentrator using the DC power supply through a standard 12V vehicle outlet.

Spare Batteries: Charge additional RES9000P2 batteries separately from the concentrator using a compatible external battery charger, allowing you to keep a spare battery ready to use.

Compatible With	*__Rhythm P2__, Arya Max, Vita-Ox HD7
Battery Type	Rechargeable Lithium-ion
Certification	UL Certified
Design	Ergonomic ribbed pull tab grip for easy removal
Manufactured By	Linyx

Estimated Run Time by Setting
